## DESCRIPTION

The ESSE WS turntable shelf is the ideal solution for any music lover wishing to wall-mount their turntable. The shelf, available in light oak, walnut or tempered glass, is supported by four Damp 50 resonance dampers to prevent the transmission of unwanted resonance to the turntable. Its size of 470 x 430 mm and maximum weight of 30 kg means that the vinyl shelf can support most turntable models, and its large depth means that the turntable cover can be left open while a vinyl is played. With its sleek and elegant design, this turntable stand will easily find its place in your home and will enhance your installation.
